WE ARE REFINITIV. CONNECTING THE GLOBAL AGRICULTURE COMMUNITY TO WHAT'S NEXT.

We empower the agricultural commodities community by bringing together the world's most extensive commodities news coverage, a constant connection to the global agriculture community, a robust fundamental database and best-in-class forecasts on supply and demand.

Find out how our insight can inform – and transform – your business.

refinitiv.com/agriculture

Our priority is to keep you running. At your full potential. At the forefront of a highly competitive industry.

In order to achieve this, **QST/APEX** combine hard-earned know-how and expertise, forward-thinking, best of today's technology and one of the most highly rated customer support experiences in the field.

We claim all of this because:

- We strive to balance user-friendliness, light resource consumption and performance, while addressing the expectations of the most demanding and sophisticated customers.
- We take data delivered from an ever-expanding number of Exchanges and use it to power a highly customizable, flexible interface. RFQ/UDS support is offered for CME Group products, our Charts' capabilities have just been expanded. Interaction with the "outside world" through live linking now offered from more frames.
- Our improved "Advanced Options" and new "Post-Trade Risk Management", "Estimated Pricing" and EFP support, "Web Services API" for order book automation, as well as better order entry functionality deliver more value to our customers than ever before.
- We go everywhere: on PCs (we don't discriminate – Java-based and native apps for Windows/Mac available), iOS, Blackberry, Windows Universal or Android. Our "Lite" offering will suit users that prefer the simplicity of a browser-based approach.
- We've integrated a modern internal browser to ensure Web Content and News Wires are experienced seamlessly.
- We think security is paramount, continuously adjusting to the latest recommended best practices in the industry, through encryption, TLS support and password expiration.
- We are agile: various fixes and improvements delivered through updates in record time.
- We hear you: backed-up by world class customer support and improving our service by integrating customer feedback.

Grow Your Business With IRA Investors

Benefits for Professionals Marketing to IRA Investors

New Source of Capital - More than \$7.5 trillion are held in IRA accounts with a median balance of \$26K and an average balance of \$103K.*

Opportunity to Educate - Most investors are misinformed and don't know they can use IRAs to invest in futures and forex.

Additional Source of Investment Funds - IRAs are an additional source of funds for investors.

Benefits for IRA Investors

Tax Advantages - Retirement plans allow tax-free or tax-deferred retirement savings. Depending on eligibility and type of IRA, the IRA owner may also receive a tax deduction for IRA contributions.

Investment Options - Midland will hold assets that a traditional custodian won't, such as futures or forex trading accounts which have a flat annual asset fee.

True Diversification - Clients have the freedom to choose investments they know and understand to improve diversification in retirement accounts.

Key Questions to Ask Your Investor

Do you have an IRA or old 401(k)?

Did you know you can trade futures with an IRA?

Did you know you can start an IRA today and trade futures?

Process to Open An Account

1. Client completes the Midland application online.
2. Client completes a brokerage application and you forward to Midland.
3. Once Midland receives funds by IRA transfer, rollover or contribution, we have funds wired out the next business day.

Why Choose Midland?

EXPERIENCED

Midland is staffed with Certified IRA Service Professionals (CISP) and has been administering alternative assets in self-directed IRAs for nearly three decades.

RESPONSIVE

We have a dedicated team focused on futures and forex traders and can get accounts set up and funded quickly and easily.

TECHNOLOGY DRIVEN

Clients can monitor every transaction as it comes into the IRA. They can initiate transfers and make contributions to or distributions from the IRA without ever signing a form.

MIDLAND TRUST COMPANY, NOR ITS AFFILIATES OR SUBSIDIARIES (COLLECTIVELY REFERRED TO AS "MIDLAND"), IS NOT A FIDUCIARY: Midland's role as the Custodian and/or Administrator of self-directed retirement accounts is non-discretionary and/or administrative in nature. The account holder or his/her authorized representative must direct all investment transactions and choose the investment(s) for the account, and is responsible for conducting his/her own due diligence. Midland has no responsibility or involvement in selecting or evaluating any investment and does not conduct any due diligence on any investment. Nothing contained herein shall be construed as investment, legal, tax, or financial advice or as a guarantee, endorsement, or certification of any investments.

ION GTP

Simplifying the world of execution

Derivatives trading firms around the world are under intense pressure as falling commissions and tightening regulation, curb revenue growth and reduce profitability.

For your business to thrive in these conditions, you can't rely on a mixture of poorly integrated and outdated platforms. You need advanced technology.

Whether you're a global bank, a specialist trading firm, or somewhere in between, our integrated order management and execution solution, GTP, can transform your complexity into simplicity.

The number 1 choice

Multi-award winning

\$2.2 trillion flow value

1.1billion+ lots

Everything you need in one solution

- Integrated execution and order management in one platform.
- Efficiently execute complex orders with benchmark algos and our synthetic spread trader.
- Split and allocate trades directly from the execution screen using intelligent allocation algorithms.

Trade anytime, anywhere

- Access any market in the world, 24 hours a day, directly or through our vast connectivity network
- Empower your global teams to implement a follow-the-sun model with our order handover functionality.
- Connect from anywhere using your mobile device, laptop or workstation.

Always meet your regulatory obligations

- Get a complete audit trail covering the full order execution lifecycle.
- Stay compliant with a managed solution that's constantly updated in response to regulatory changes.

Make your workflows easier

- Execute everything from no-touch DMA to high-touch care orders.
- Transform high-touch execution into low-touch with rule-based strategies.
- Simplify complex electronic workflows with bulking, stitching, linking, and spread tail management.

Get a complete view of your business

- Consolidated view of all your trading activity and risk and easily drill down into accounts, trades, and positions.
- Monitor your execution performance with integrated real-time analytics.
- Respond rapidly to issues with exception-based monitoring and alerts.

Free your business to grow

- Reduce technology costs with our hosted solutions.
- Onboard new clients swiftly.
- Scale your business easily with our modular technology.

Agribusiness Solutions

Find more opportunities to prosper in today's dynamic world.

As a proud ADMIS participant, DTN is committed to the ag industry. Since 1984, we've delivered innovative solutions, unbiased insights, and must-have data to producers and their trusted agribusiness partners.

We invite you to take a look at two of our most popular solutions. They'll not only help you make sharper, more confident decisions for your business but also allow you to better support your producers. By working together, we can help feed our world and make agriculture a more prosperous industry.

Capture, build, and maintain a competitive edge

DTN ProphetX® delivers the commodities trading data and analytical tools you need — even in times of high volatility. This multi-language solution enables desktop and mobile trading supported by exclusive market information and news, sophisticated charting options, and more.
