It's July and a non-spot month which means speculators will dominate trading. August Live Cattle are discount to cash and traders are bear spread. Don't be surprised to see traders keeping the futures discount to cash and possibly widening it during the first 2 plus weeks of July.

=====

Last week the difference in pricing between the Southwest cattle and Midwest Cattle narrowed. Friday saw sales take place in the Southwest from 178.00 to 179.00 with Midwest cattle selling from 182.00 to 184.00 and dressed cattle at 285.00 to 290.00 with the higher price more active on Friday afternoon into Saturday. In Kansas buyers were a bit more picky. Choice steers grading 80% or more Choice sold at \$182.00 and steers grading 65% to 80% sold for \$179.00.

Packers need cattle to match beef orders and the number of heavy Choice cattle that packers can find are fewer with more Select being sold especially in the Southwest. When temperatures are 95 to 110 and some areas hotter, cattle put on frame and not weight. Over the weekend parts of Texas were the hottest place on earth. Feedlot managers are willing to move cattle at lighter weights. Regardless of grade or weight FOB cash sales for steers and heifers in the Southwest sold from \$178.00 to \$179.00 weighing from 1170 pounds to 1450 pounds.

Don't put too much stock in price activity on Monday. Kill was light as pork sales were on Monday as a few packers used Monday as a fill in for a floating holidays when they worked such as Martin Luther Kings birthday and Juneteenth,

The recent CME Lean Hog Index is 93.92 and July Lean Hogs settled at 97.82 Monday. Essentially Lean Hog futures are saying cash hogs are going to continue to move higher until expiration or it could say,

Monday was a light volume trade and longs were buying July and spreaders continue to be bull spread July over August as the July August spread widened favoring July.

=====

Before the Hogs and Pigs report analyst's estimates concentrated on "intended" farrowing intentions. The reality: what a producer might intend to do, can be easily changed. Intentions are not written in stone. However, the Hogs and Pigs report did show that there were slightly more hogs as of June 1st, there were slightly more hogs kept for breeding and slightly more hogs kept for market. It also showed there were more pigs per litter which is likely because there hasn't been disease problems such as PRRS as there was in 2022.

=====

Pork exports remain good. The strength in sales is all about the amount Mexico buys. If it wasn't for Mexico, U.S. exports would be dismal.

Pork net sale exports were 26,700 MT. staying around the past few weeks sales. Mexico was largest taker with 15,100 MT followed by South Korea at 4100 MT then Japan at 2600 MT. China was absent

WEEK ENDING JUNE 15, 2023 NET EXPORT SALES WERE 28,700 MT
WEEK ENDING JUNE 08, 2023 NET EXPORT SALES WERE 26,700 MT
WEEK ENDING JUNE 01, 2023 NET EXPORT SALES WERE 25, 500 MT
