CQG Algos: Trade Optimally

Ever evolving technological advances in electronic trading present us with unique opportunities and distinct challenges. Capitalize on these and gain better control of your trading strategies with CQG Algos.

Market participants looking to execute large volumes of orders also endeavor to get the best price available in their market. The best price available can be nebulous: Is it attained by aggressively paying up for an immediate fill or by working the order over time? At the risk of the market slipping away, either is an option, but there is a better solution.

The above challenges led to the evolution of a new technology and tools to execute large orders: CQG Algos.

Browser or Install

Our lightning fast HTML5 means easy access to the markets from anywhere, anytime. Updates with new functionality happens seamlessly over the air in offtrading hours. For institutional customers, a windows installed version will be available for IT compliance.

Award-Winning Customer Support

Our award-winning customer support teams operate from ten locations across the globe and strive to exceed customer expectations twenty-four hours a day.

"IF YOU THINK COMPLIANCE IS EXPENSIVE, TRY NON-COMPLIANCE"

Paul McNulty, former U.S. Attorney General

As the futures markets evolve, an effective compliance program should do the same. New rules and regulations are established for good reason...to protect the integrity of the markets and to protect the customers you serve. Your regulators aim to safeguard the integrity of the derivatives markets, protect investors, and ensure each member in the industry meets their regulatory responsibilities. Your approach to compliance should be treated with the same level of detail and respect you give to other parts of your business.

Robert DeMuria and Joseph Mazza have over 35 years of experience in the futures industry. Both entered the industry where it counts the most...as compliance professionals with National Futures Association. CSI and its dedicated staff have been providing the futures industry with quality service since 1994.

Grow Your Business with IRA Investors

Benefits of marketing to IRA investors:

- Close to \$13 trillion dollars¹ in IRA accounts with the average traditional IRA account value slightly more than \$100,000².
- Most investors are misinformed and don't know they can use IRAs to invest in futures and forex.
- IRAs are an additional sources of funds for investors.

TAX ADVANTAGES

Traditional, Roth, SEP, SIMPLE, and Solo 401(k) plans allow individuals to save for retirement tax-free or tax-deferred. Depending on eligibility and the type of IRA, the IRA owner may also receive a tax deduction for IRA contributions.

INVESTMENT OPTIONS

Equity Trust Company will hold assets that a traditional custodian won't such as futures or forex trading accounts which have a flat annual asset fee.

TRUE DIVERSIFICATION

Our clients have the freedom to choose investments they know and understand to improve diversification in retirement accounts.

Key Questions to Ask Your Investor

- Do you have an IRA or old 401(k)?
- Did you know you can trade futures with an IRA?
- Did you know you can start an IRA today and trade futures?

Process to Open an Account

- 1. Client completes the Equity application online.
- 2. Client completes a brokerage application and you forward to Equity.
