STERLING MARKETING BEEF MARGINS WEEK ENDING JUNE 8, 2024

PACKER MARGIN (\$ /HEAD) **(\$55.06)** LAST WEEK **(\$85.21)** MONTH AGO **(\$137.38)** YEAR AGO **(\$25.51)**

FEEDLOT MARGINS: \$325.90 LAST WEEK \$327.09 MONTH AGO \$291.43 YEAR AGO \$509.41

Sterling Marketing uses the Comprehensive Beef Cutout Value reported by USDA. I have included a document that explains this cutout value. I looked at this value about 4 years ago and compared the beef packer margin values from my Choice-Select Adjusted value and this Comprehensive value. There was little difference. However, over the past few weeks, the difference has become significant. I believe this is because the mix of cattle slaughtered is increasingly includes higher valued cattle – i.e., Prime, Upper 2/3 Choice, and Branded Program cattle. In addition, it includes the formula-priced cattle. Using just the Choice and higher grade and Select grade to generate the cutout does not reflect this important difference in the quality of cattle which in turn is definitely a driver to the notable improvement in beef demand over the past year.
