Our training website is designed to help you manage your firm's training requirements, including important reminders. Your firm can administer training and monitor due dates. Modules include:

- Anti-Money Laundering
- Ethics
- Cybersecurity
- Customer Funds Protection
- Identity Theft

**"IF YOU THINK COMPLIANCE IS EXPENSIVE,  
TRY NON-COMPLIANCE"**

Paul McNulty, former U.S. Attorney General

As the futures markets evolve, an effective compliance program should do the same. New rules and regulations are established for good reason...to protect the integrity of the markets and to protect the customers you serve. Your regulators aim to safeguard the integrity of the derivatives markets, protect investors, and ensure each member in the industry meets their regulatory responsibilities. Your approach to compliance should be treated with the same level of detail and respect you give to other parts of your business.

Robert DeMuria and Joseph Mazza have over 35 years of experience in the futures industry. Both entered the industry where it counts the most...as compliance professionals with National Futures Association. CSI and its dedicated staff have been providing the futures industry with quality service since 1994.
