Packers started buying cattle Wednesday and continued Thursday in the Midwest but for all but a few at least as of Thursday have not taken cash cattle in Kansas and Southwestern states. What they have bought in the Southwest are being bought for \$172 compared to Midwest cattle at \$180.00 to \$182.00 with delivered cattle up to 184.50. Leaving out Southwestern cattle the average weights for steers are over 30 pounds heavier.

Thursday boxed beef was higher with close to a \$10.00 higher price for Choice primal ribs. Mother's Day is May 14<sup>th</sup> and it is one of the biggest days of the year for restaurants. But there were also good gains on other Choice primals and Select primal loins.

Cattle numbers are down for the year and movement on daily beef markets is about the same suggesting packers have fewer contract orders.

### FRIDAY, APRIL 28, 2023 IS LAST TRADING DAY FOR APRIL 2023 LIVE CATTLE

APRIL LIVE CATTLE ON APRIL 27, 2023 CLOSED AT \$175.45. THE 5 DAY NEGOTIATED AVERAGE PRICE IS \$179.33.

Beef exports for week ending April 20, 2023 were 9,500 MT. No country was a large buyer. Japan took 2400 MT, South Korea at 2200 MT and Canada 1600 MT. China took 500 MT and decreased 1300 MT.

When countries like Brazil and Australia have more cattle and a cheaper currency, it is hard to get US exports moving.

Week Ending April 13, 2023 19,100MT Week Ending April 6, 2023 8,700MT Week ending March 30, 2023 13,500MT Week ending March 23, 2023 11,300MT

Average 5 week net exports 12,420 MT

Both hogs and pork are slowly moving up. The difference between CME Lean Hogs has been favoring pork over hogs which is good for the packer. But neither hogs or pork are making big moves. Pork remains cheap compared to beef and it is likely the reason for the up move along with week after week excellent pork exports.

Pork export strength relies totally on Mexico. As long as Mexico tries to fight inflation importing more and as long as the Peso remains strong against the U.S. Dollar, pork exports should remain good.

The wide bear spread is a concern. The latest CME Lean Hog Index is \$71.31 and June Lean Hogs closed Thursday at \$90.10 for a difference of \$18.79.
