August cattle placements seen down 6.4% from last year -analysts - Reuters News

	Range	Average	Million head
On feed September 1	96.9-99	97.7	11.023
Placements in August	87.9-97.8	93.6	1.980
Marketings in August	94-97.5	94.7	1.898

Cattle slaughter is down this week and it is not all due to fewer cattle. Boxed beef prices are dropping, off \$5.03 for Choice compared to a week ago, and cattle weights are higher. On September 1st the 5 day accumulated weighted average for steers was 1,449 pounds and for heifers 1,294 pounds. Currently, steer average weights are 1,473 pounds and 1,326 pounds for heifers. There is no incentive for packers to kill more. They aren't making money on cattle they buy on the showlist or beef sold on the daily market. More beef is being sold on the daily market at a lower prices and with fewer cattle it suggests packers have fewer previously contracted beef orders or orders that have been cancelled or moved to future dates at a cost to the buyer.

Cash cattle started selling Thursday. Cattle in the Midwest were steady to \$1.00 with top prices up to \$187.00 and dressed steers 292 to 293.00, mostly 292.00. Kansas and Southwest cattle were steady on light movement at \$183.00.

NATIONAL WEEKLY FED CATTLE COMPREHENSIVE REPORT AUGUST 22, 2023

As of August 22, 2023 dressed steer and heifer carcasses averaged 870.3 pounds up 5.3 pound_from previous week at 865.0 pounds and 4.3 pounds lower at 874.6 pounds than a year ago. The grading percent as of 8/22/23 was down at 79.6% compared to previous week at 81.0%. A year ago the grading percent was 79.9%.

NATIONAL WEEKLY FED CATTLE COMPREHENSIVE REPORT SEPTEMBER 19, 2023

As of September 19, 2023 dressed steer and heifer carcasses averaged 876.6 pounds up 2.8 pounds from previous week at 875.7 pounds. The grading percent as of 9/19/23 was 77.8% compared to previous week at 79.7% off 1.9%. On September 20, 2023 carcasses weighed 886.1 pounds and graded 78.1%.

Cattle from the Southwest being moved now that should have moved weeks or a couple months ago have gained weight but are low grade. Also many feedlots cleanout feedlots this time of the year moving all cattle from top grading cattle to the deadheads.

Compared to last week, Feeder Steers and Heifers sold steady to 4.00 Higher. Supply was moderate and demand was moderate to good. In Missouri reporters noted the temperature swings between night and day, making it more difficult to keep calves healthy, those coming to auction without legitimate health and weaning programs seeing discounts. Oklahoma reporters noted Rain and cooler temperatures moved across much of the state this week and this improved demand for calves. Across South Dakota Pastures are getting short and more cow/calf producers will be shipping their calves to town in the coming weeks.

Hog prices fell on profit taking and concerns hog numbers in the US and globally will increase into the next year. Pork prices have been steady this week with the 5 day average carcass price at \$99.67. Volume has been light this week and the move up Wednesday was purely a speculative move and Thursday with weak cash hogs and pork going sideways, traders took their money and ran.

Beef consumption in the US is expected to be down 3 pounds in 2023 and pork consumption is expected to be up 1 pound. But when US slaughter is up as of last week compared to a year ago 1.3%, a 1 pound gain isn't big enough to add much to pork prices. Pork prices will move up if beef prices remain high or move to higher levels of this summer.

EXPORTS

FOR THE WEEK ENDING SEPTEMBER 14, 2023 NET EXPORT SALES WERE 30,200 MT. no surprise that Mexico was the largest buyer taking 13,500 MT followed by South Korea with 3600 MT and Canada came in third taking 3300 MT China who was absent last week took 2500 MT and Japan bought 2100 MT. Pork exports definitely are helping the pork and hog markets.
