JANUARY 2024 USDA LIVESTOCK REPORTS

CATTLE ON FEED REPORT - JANUARY 19, 2024

COLD STORAGE REPORT – JANUARY 24, 2024

CATTLE INVENTORY REPORT - JANUARY 31, 2024

ALL REPORTS 2:00PM CST

=====

Rain turning to snow and a big drop in temperatures slowed cattle and hog s to the packer Monday and more so on Tuesday. Monday's cattle and hog slaughter were revised lower and Tuesday's slaughter showed lower kills. Monday and Tuesday the cattle slaughter is estimated to be down 57,000 head compared to the same period in 2023 and hog slaughter is estimated to be down 89,000 head.

Load movement on beef sales is also down. Tuesday on early sales only 27 loads of Choice cuts sold and 12.5 loads of Select beef sold. Of course it doesn't necessarily mean it was moved out of the packing plant and it is also possible retailers might have received earlier sold loads on Tuesday with loads moved from 0 through 21 days. In other words, beef or pork sold on Tuesday January 9th may not be delivered until the end of the month.

On the light kill, Choice was up \$1.33 and Select was up \$3.47.

Dropping temperatures and strong winds are expected and it will cause blowing snow over the next week. It will slow movement of livestock and meat.

At this time, it might not be as friendly to higher prices. The weather conditions also cause a backup of livestock. Cattle will come to town for slaughter. The slower movement of beef is what packers need to slow the falling cutout. Consumers have slowed buying the high priced Choice cuts in favor of cheaper Choice primals, Select beef and ground beef.

Tuesday, December 26, 2023 the Choice to Select Spread was \$31.75. It has now narrowed to \$17.31.

Packers are working with negative margins.

Severe cold is predicted to last about 10 days with night temperatures below zero in many areas across the Midwest. There will be some death loss and feed conversions will drop but currently carcass weights are 16.5 pounds above a year ago.

FEEDER CATTLE

CME FEEDER INDEX ON 01/08/2024 WAS 227.69 DOWN 1.33 FROM PREVIOUS DAY

JANUARY 2024 FEEDER CATTLE FUTURES SETTLED ON 01/09/2024 AT \$223.77

=====

NATIONAL FEEDER & STOCKER CATTLE SUMMARY - WEEK ENDING 01/06/2024

RECEIPTS:	Auctions	Direct	Video/Internet	Total
This Week:	180,900	16,900	14,400	212,200
12/26/2023:	103,100	36,300	1,300	140,700
Year Ago:	262,300	43,500	32,900	338,700

Compared to last reported (two weeks ago), steer and heifer calves sold 8.00 to 12.00 higher, while yearlings sold 2.00 to 5.00 higher. Demand was good to very good throughout the week and it usually is the first couple weeks of the new year as buyers are ready to get back to business as usual. This week was still an abbreviated week as there were several barns that took a full two weeks off for the holidays. Demand was good to very good as buyers were ready to get back to filling orders following the holidays and there were no major weather issues interrupting transportation in most of the nation. Buyers continue to want cattle that have had vaccination and weaning programs. Some buyers now have orders for calves that are required to have a 60-day weaning period, up from the typical 45-day period that was standard not that long ago.

DECEMBER 2024 LEAN HOGS	75.17		80.65 JUNE 21, 2023

=====

Two days of lighter slaughter didn't do much for pork sales Tuesday morning Pork was up 62 cents. The 5 days pork carcass is down 11 cents. Hams average \$79.09 and loins average 81.34.

The positive news is how the CME Lean Hog Index and the CME Pork Index continue to widen, currently at \$18.52. This is positive for packers and when hogs come to the packer as the winds and snow stop blowing, they will push delayed hogs through the line.
